

### Who are we?

- Proventavia LLC was founded in 2009 in Switzerland by five executive aviation senior managers.
- We have a combined industry experience of over 125 years and provide our clients with reliable aerospace services and products.

### Why to perform an audit?

- A Business aircraft operation is a highly **specialized and complex discipline** and requires in depth knowledge of the industry.
- Proventavia LLC is a totally independent consulting firm and **only represents the interests of the aircraft owner / principal.**
- Experience shows that many **aircraft operations have considerable potential** for financial / operational improvements.
- A **special audit process** has been developed **by proventavia** to analyze aircraft operations.
- The audit results in a **report of findings** and **lists areas of potential financial / operational improvements including suggestions** for corrective actions.

### Aircraft Management Auditing

### Audit areas

- ✓ Aircraft financing
- ✓ Aircraft Insurances
- ✓ Aircraft registration
- ✓ Aircraft management / operation
- ✓ Pilots and cabin attendants
- ✓ Aircraft operating costs
- ✓ Aircraft Maintenance

### Questions to be addressed

- Are the terms of your aircraft financing in line with market conditions?
- How adequate are the terms and conditions of your insurance contracts?
- How suitable is your current aircraft registration?
- Are the terms of your aircraft management agreement in line with market conditions?
- Are the qualifications of your pilots and cabin attendants industry standard?
- Are operating costs justified and in line with the aircraft management agreement?
- Are your maintenance costs reasonable in view of the current market conditions?
